

Nature in Action: Spring Homeschool Middle Years Series

Homeschool Middle Years Programs

Outdoor, hands-on learning abounds at Blandford Nature Center with 264 acres of varied natural communities nestled in Northwest Grand Rapids.

Homeschool classes at Blandford will immerse students in nature and are designed to help integrate Next Generation Science Standards while engaging students' natural sense of inquiry.

Programs are offered from 1:30 to 3:00 pm, taught by our highly experienced education staff and geared for children 11-13 years of age.

Homeschool Price Guide

Register for Blandford's Homeschool Spring Series for a special flat fee of only \$25! Each session has 3 monthly programs.

Be sure to spread the word among the Homeschool Community about this new opportunity for middle years students aged 11-13!

Spring 2019 Homeschool Middle Years Series

Science of Sugaring 2.0

Tuesday, March 12

Experience the science of maple syrup production! Identify maple trees, collect data on forest health and smell the sweet syrup cooking in the Sugarhouse. Practice modern methods of tapping, collection and boiling using real tools, then taste the sweet results.

Ecosystem Energy

Tuesday, April 16

Everybody has to eat something and something eats everything! Follow the sun's energy by exploring plants, animals, and fungi through the lens of a producer, consumer, or decomposer.

Farming Comes Naturally

Tuesday, May 28

Discover how a farm is like an ecosystem, the impact farms have on our health, and the impact they have on the health of the biosphere. Visit our greenhouses, examine soil samples, learn about vermiculture, and greet the resident farm animals!

Registration Deadline is March 1st!
