Vegetable CSA Working Share Discount

30 hrs per season/2 hrs per week		Discount will be applied once working share details are confirmed via email. If you are interested in a working share only pay for your deposit, as your discount will be removed from your remaining balance.
60 hrs per season/4 hrs per week		

Pick Up Location

Tuesdays, at the Farm: 4-6:30pm		FREE	
Fridays, at the Fulton Street Market: 8am-1pm		\$25/\$10*	
Saturdays, at the Fulton Street Market: 8am-1pm		\$25/\$10*	
Winter CSA pick up: 4-6pm	Due to inconsistent market attendance in Nov and Dec, the only option for picking up a winter CSA is Tuesdays, from the farm, from 4-6pm. Please note the time difference from the summer share pick up.		

*The market pick up options are an additional \$25 for the vegetable CSA, and an additional \$10 for the flower CSA.

OUR COMMITMENT

Blandford Farm will do its utmost to provide an adequate amount of high quality produce to its CSA members during the season. We are Certified Naturally Grown, MAEAP (Michigan Agriculture Environmental Assurance Program) certified, and have received a certificate of completion for voluntarily going through MDARD's produce safety risk assessment. This assessment verifies that our food safety policies are in compliance with the Food Safety Modernization Act. We maintain these certifications to stay accountable to anyone who gets produce from the farm, and are committed to continually improving our management practices.

We use organic principals in all our vegetable growing practices to ensure healthy produce, and to minimize our impact on the surrounding ecosystem.

YOUR COMMITMENT

By becoming a member of the Blandford Farm CSA, I understand that I am joining a community that supports the Blandford Farm. I agree to pay my full share amount in the time allotted to me, and authorize Blandford Nature Center to charge the indicated amount below to my credit card. I acknowledge that weather and unforeseen circumstances outside of our control can have adverse effects on the growing conditions of a given season, resulting in unpredictable production conditions.
